Do you think we could develop better innovation if we consider gender and diversity systematically?

0 2 2

Yes

Not sure

No

What do you take with you from today's session?

008

That we are dependent on infrastructure

Much more clarity, interest and ambition as well, compared to three years ago, when GoNano started

Very good suggestions and positive ideas for co-creation.

There's way to go and the path is steep!

It is hard to resolve the issue of power asymmetry - but we should try still!!

New insights in interesting Co-creation projects - and valuable insights on GoNano

Interesting lessons learned and food for thought

Changing the social construct of power needs addressing
